📍 Erode - 638 002

EDUCATION:

KONGU ENGINEERING

COLLEGE, ERODE 2023 - 2027

B.E : CGPA -7.61

JAYCEES MATRIC HR SEC

SCHOOL, ERODE - 2023

HSC : percentage - 72.5%

JAYCEES MATRIC HR SEC

SCHOOL, ERODE - 2021

SSLC : All pass

TECHNICAL SKILLS:

- 3D Modelling(SolidWorks)
- Robo Guide
- TIA PORTAL (SIEMENS)

AREAS OF INTEREST:

- PLC Programming
- Robotics
- Automation Engineering

CERTIFICATION & TECHNICAL COURSE:

- SolidWorks CAD design associate (July2025) - International certification.
- PCB designing at KEC, Edu tech(NOV 2024) - Additional course.
- Relay logic controller at KEC(Feb 2025) - Additional course.

LANGUAGE:

- English
- Tamil
- Telugu

CAREER OBJECTIVE

Enthusiastic Engineering student passionate about automation, robotics, and emerging technologies. Looking for an opportunity to develop practical skills, work on challenging projects, and contribute to technological advancements in a growth-oriented organization.

PAPER PRESENTED:

- **Energy harvesting using piezoelectric technology** on Aug 2025, The project idea is to utilize the waste energy in the roads

PROJECT PRESENTED:

- **Monitoring system in TBF** in SIH, KEC(Sep 2024). perfect monitoring system which monitor the motor inside the TBF.
- **IoT-Based Smart Home Automation and Energy Monitoring System**, Developed an ESP32-based system for remote appliance control and real-time energy usage monitoring, presented at Electrothon 2026, Kongu Engineering College.
- **Automatic plate making machine by coconut tree's petiole**, KEC(Mar 2026). Machine to Convert Coconut Tree By-Products into Sustainable Tableware.

INPLANT TRAINING:

- **Vinayagar electro alloys pvt Ltd** - Erode (June 2025) Learned Observed ferroalloy manufacturing using electric arc furnaces, with exposure to high-power electrical systems and plant maintenance operations. (5Days).

WORKSHOPS:

- Autonomous vehicles vehicle at KEC
- The Robo Sumo at KEC(Oct 2024) for 2 days.
- Evolution of future automotive technology at KEC(Mar 2024)
